8 Parachute Association of South Africa (PASA) - Registered Drop Zones

8.1 Applications for Drop Zone Operations shall be made on the appropriate form and submitted to RAASA no less than 60 days prior to intended operations are to commence. All permanent drop zone approvals are approved for Sport and Recreational parachuting operations, by members of the ARO and bona fide parachute clubs approved hereunder.

8.2 A listening watch and position reporting must be maintained on the appropriate frequencies by all aircraft operating from or to the areas stipulated in paragraph 2. Where an air traffic control unit is in operation and within controlled airspace, permission prior to dispatching skydivers must be obtained from the responsible Air Traffic Service Unit.

8.3 Parachute clubs are reminded that, for all jumps away from the above-mentioned drop zones i.e. temporary drop zones or demonstration jumps, prior approval from RAASA must be obtained. Applications on the appropriate form shall be submitted by the approved Chief Instructor or signatories from the affiliated clubs to RAASA and PASA. RAASA will NOTIFY the Central Airspace Management Unit (CAMU) and/or Aeronautical Information Services (AIS).

8.4 A copy of the RAASA approval form, with a RAASA approval number, is to be handed to the pilot of the aircraft before take-off should ATC request such an approval number.

8.5 All other relevant documents as required are to be held on file by the Drop Zone Operator for possible inspection by RAASA.

8.6 In the case of display jumps or temporary drop zones, applications shall be submitted to RAASA within the prescribed period prior to the event.

8.7 Any operations to be conducted within Controlled Airspace require approval from the relevant ATSU and/or Letter of Procedure (LoP) with the ATSU.

8.8 All Skydive Drop Zones shall be a 5NM radius centered on the co-ordinates, unless specified otherwise.
